

THE 2018 LAGOON CRAWLER

2018 LAGOON CRAWLER

CAT 7.1T4F 275HP MOTOR

Slightly better fuel economy than the Cummins 6.7L

12" PUMP

12,000 GPM & higher pressure than 10"

FULL WHITE IRON HOUSING

White iron impeller, inlet cover, housing & back plate

8" SIDE PIPES

Higher pressure available for the agitator guns

32" DEEP FLOATS

On entry into steep lagoons, the Crawler floats sooner

MODULAR PLUMBING

Modular plumbing can easily be replaced

FORWARD & REVERSE

Machine swivels with ball bearings

STEEL PUMP HYDRAULIC SYSTEM

Capable of higher pressures for more torque to wheels

VS

2017 LAGOON CRAWLER

CUMMINS QSB6.7 MOTOR

10" PUMP

10,000 GPM

WHITE IRON & AR STEEL

White iron housing, AR steel inlet cover, top plate & impeller

6" SIDE PIPES

Higher friction loss with 6" frame

24" DEEP FLOATS

INTEGRATED PLUMBING

Pipe is integrated with the frame

FORWARD & REVERSE

Steel on Steel

ALUMINUM PUMP HYDRAULIC SYSTEM

Lower Pressure

NEW TO THE 2018 LAGOON CRAWLER

DIRECT DRIVE HYDRAULIC PUMP PAD

The Cummins pump mount could not take all of the torque the hydraulic system required. Needed a belt drive to run hydraulics

REDESIGNED A-ARMS

Heavier duty A-Arm design, wear bushings in the pivot points of Crawler, Seals on bushings to keep grease in and sand out

LARGE CANNON NOZZLE

Large cannon nozzle away from motor radiator. Keeps the radiator much cleaner

REDESIGNED HYDRAULIC SYSTEM

All hydraulic blocks are easily accessible for service, redesigned dump valve block, HD cooler fans

4816 Line 34, Sebringville, N0K1X0, ON, Canada

THE 2018 LAGOON CRAWLER

NO PIT IS TOO THICK

The submerged pump & 4WD system make it impossible to get stuck.

FULL WHITE IRON HOUSING

Stand up to sand with full white iron housing

PUMPS 12,000 GPM

Tri Port header pump able to move over 12,000 GPM!

NO PIT IS TOO BIG

The remote control system allows the Lagoon Crawler to get 1000' away!

SUPERIOR AGITATION

The 8" front nozzle is able to crush through thick crusts

HYDRAULIC SELF ADJUSTING CLUTCH

No clutch adjustments needed

CRANE LIFT OPTION

Effectively clean out slurry pits using The Lagoon Crawler with crane lift. No need for excavation!

DRIVE OUT WHEN COMPLETE

The large aggressive tread tires allow you to easily drive in and out of the lagoon

EASY TO TRANSPORT

Available with a tandem trailer to get from job to job
