

Loading Pipes

Loading Pipe on Tripod

Key Features

- Aluminum loading pipe measuring 25' (7.62 m) long;
- 6" (150 mm) discharge or 8" (200 mm) discharge for faster loading and less velocity;
- Available with 20°, 70° or 90° elbows.

Loading Pipe on Wheels

Key Features

- 8" (200 mm) to 10" (250 mm) loading pipe to decrease the velocity by 36% and reduce the foaming produced when using a high output pump;
- Steel loading pipe measuring 30' (9.14 m) long;
- Hose adapter at the intake.

Optional

- Hydraulic height adjustment;
- Accessories basket.
